In order to run the Iris Interactive Shiny App run the main.R file.

This projects consist of:

- Iris Interactive.Rmd: A Notebook with interactive Shiny elements, describing the basic structure of the project.
- Iris interactive App: Shiny App.
- IrisInteractive.RData: The App uses a predefined environment.
- Dashboard UI folder: Unused variant of an earlier version of the app.
- rsconnect folder: In order to publish the app to shinyapps.io.
